Skills

Frontend: Tailwind, JavaScript, TypeScript, ReactJS, NextJS
Backend: Firebase, NodeJS, Prisma, MongoDB, PostgreSQL, MySQL, Stripe
Other Skills: SEO practices, Video Editing, Photoshop, 2d/3d Animation & VFX, 3d-Modelling

Professional Experience

Project Lead Developer, AiVirex Innovations (October 2024 – Current)
- Leading and developing with a team of interns in a NextJS and Firebase-based project from scratch.
- Making strategic decisions regarding project architecture, design and implementation.
- Overseeing all aspects of the project, including development, testing and deployment.

Virtual Internship, Frontend Simplified (March 2024 – May 2024) **Project-1 Project-2**
- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Integrated APIs to dynamically represent data from cloud servers, implementing features like skeleton loading states, pagination and dynamic routing.
- Developed another feature rich web application using NextJS, TypeScript, Firebase and Stripe.
- Implemented user authentication, dynamic content display, audio playback and payment functionality.

Projects

Enterprise Website: Frontend Focused with ReactJS (Freelance Project: WIP) - Link
- Amderon Enterprise is a professionally designed website for a law consultation firm, showcasing their expert legal services and personalised solutions. The site features information about practice area, attorney profiles and client testimonials, ensuring easy navigation for potential clients.

Full-Stack Twitter-Type Web Application with TypeScript, Redux, NextJS, and Firebase - Link
- Created a Twitter inspired web application. Key features include user authentication, tweet management (creation, like, comment, deletion), real time updates, search functionality with debouncing and dynamic user profiles replicating core Twitter functionalities with modern development technologies and practices.

Full-Stack Ecommerce Web Application with NextJS (Freelance Project) - Link
- Developed a full stack ecommerce platform from scratch. Implemented features like product catalogue, shopping cart, user authentication and URL state.
- Optimised performance for SEO, increased web impressions by 400%. PageSpeed optimisations were up to 98%.
