Technology Stack

Web Development - HTML5, CSS3, JavaScript, TypeSctript, ReactJS, Redux, NextJS, Firebase

Projects

API Fetching through the OMDB in JavaScript - Link
- Developed a dynamic movie search application using the OMDB API and JavaScript, enhancing user engagement through interactive features.

E-Commerce website using ReactJs - Link
- Built a fully functional e-commerce platform with ReactJS, incorporating features like skeleton loading states, cart functionality, product sorting, and routing for seamless user experience.

Full-Stack Twitter-Type Web Application with React, Redux, NextJS, and Firebase - Link
- Engineered a Twitter-inspired web application leveraging HTML5, CSS3, JavaScript, TypeScript, ReactJS, Redux, NextJS, and Firebase. Key features included user authentication, tweet management (creation, deletion), real-time updates, search functionality, and user profiles, replicating core Twitter functionalities with modern web development technologies.

Professional Experience

Campus Ambassador for Pre-Grad (August 2023-September 2023) **Link**
- Expanded the Pre-Grad community on campus by networking with students and faculty.
- Developed and executed a strategic marketing plan to increase campus awareness of Pre-Grad.

Virtual Internship Project, Frontend Simplified (March 2024) **Link**
- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Processed API to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilised Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Advanced Virtual Internship, Frontend Simplified (May 2024) **Link**
- Completed the Frontend Simplified Virtual Internship project, developing a feature-rich web application using NextJS, TypeScript, Firebase, and Stripe integration.
- Implemented user authentication, dynamic content display, audio playback and payment functionality, showcasing full-stack web development capabilities.

Education

Indus University, Bachelors in Computer Application (July 2022 – June 2025)
- Building a strong foundation in Programming, Software Development, and Database Management.
- Relevant coursework: Data Structures, Algorithms, OOP and Android Development.

Frontend Simplified (June 2023–May 2024)
- Mastered skills in creating and maintaining modern web applications, from user interfaces to complex backend logic.
- Gained hands-on experience with industry-standard tools and technologies.

Certifications

Meta's Professional Frontend Developer (February 26, 2024) Link
- Completed a rigorous 9-course program, demonstrating proficiency in a comprehensive range of frontend development skills accredited by Meta.
